Project title: USAID TULONGE AFYA					
Location of the action	Cost of the action (USD)	Role in the action: coordinator, co-beneficiary, affiliated entity	Investors to the action (name) ⁸	Amount contributed (by investor)	Dates (from dd/mm/yyyy to dd/mm/yyyy)
Geita District	USD 11,596 (FY 1,2019)	Co-beneficiary	TCDC	70%	1 ST MARCH,2010 TO 30 TH SEPTEMBER 2022
Objectives and results of the action		<p>The USAID Tulonge Afya project catalyzes opportunities for Tanzanians to improve their health status by transforming socio-cultural norms and supporting the adoption of healthier behaviors. By addressing key social and cultural norms and social and behaviour change (SBC) needs, USAID Tulonge Afya identifies the drivers of behaviors directly tied to health and leverages social and behaviour change communication (SBCC) and other mutually reinforcing approaches to achieve the following results: • Result 1: Improved ability of individuals to practice healthy behaviors • Result 2: Strengthened community support for healthy behaviors • Result 3: Improved systems for coordination and implementation of SBCC interventions Our integrated approach blends best practices from behavioural health sciences to address the complex individual-to-societal interplay that encourages change. USAID Tulonge Afya uses participatory, evidence-based, and theory-informed approaches. Through this, the project 1) addresses norms and inequities that drive poor health; 2) advance health while promoting rights; 3) use data better to support regional needs; 4) harmonize messages and media; 5) strengthen institutional capacity to manage and deliver high-quality SBC; and 6) facilitate coordination to maximize SBCC impact and efficiencies.</p>			
Objectives		<ul style="list-style-type: none"> The overall goal of this project is to improve the health status by transforming socio-cultural norms and supporting the adoption of healthier behaviors in order to achieve the following results: 			

Outcomes	<p>Result 1: Improved ability of individuals to practice healthy behaviors • Result 2: Strengthened community support for healthy behaviors • Result 3: Improved systems for coordination and implementation of SBCC interventions Our integrated approach blends best practices from behavioural health sciences to address the complex individual-to-societal interplay that encourages change</p>
Benefiting population	<ul style="list-style-type: none"> • 500,000 people in Geita DC and TC
